Mr. Agnelli is a charter member of the Bayside Staff. During his seven years here at our school he has contributed in innumerable ways to the well-being of the students and staff. - Next year Mr. Agnelli's assignment takes him to Peru.

Good luck on your new assignment.

*There is nothing more difficult

of a new order of things.*

To the Students of Bayside

The world today is in great need of the workings of clear reasoning. Great errors are preying upon men, but at the same time an extraordinary opportunity is being given to make "the truth which sets us free" penetrate into the depths of human life and anxiety. This creates an urgent duty for you, students. You have to equip yourselves seriously for the struggles of intelligence, to become really and deeply competent in the various fields of knowledge, and above all love intelligence and to love truth with profound and disinterested devotion. But intellectual life can develop in a genuine way only if it tends to wisdom and is fostered by the superior gifts which grow in you through diligence.

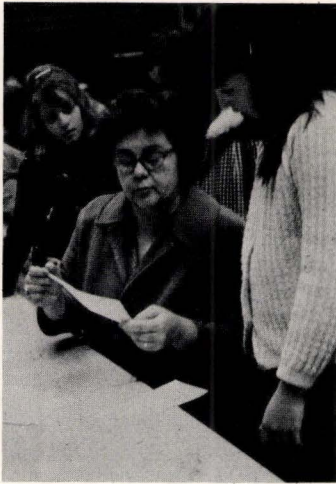

What I wish wholeheartedly for the students at Bayside School is that they may achieve within themselves a genuine self esteem, that they be well - that they be full-grown in body, in intellect and in spirit.

May you always profit by the training given to you here.

Sincerely,

John M. Hiler

If you have knowledge, let others light their light in it.

One machine can do the work of fifty ordinary men.
No machine can do the work of one extraordinary man.

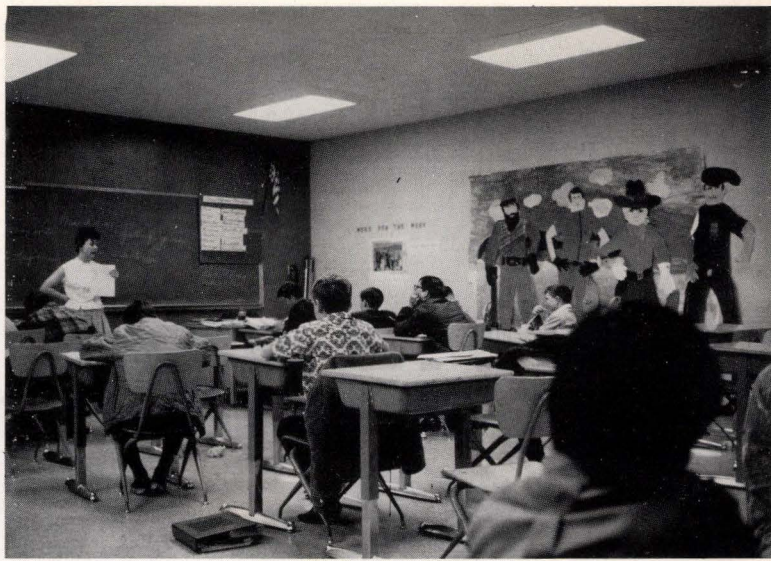

What are you looking at?

The object of teaching a child is to enable her to get along without her teacher.

They look alike!

You live in an age that is twisted and out of its true pattern, among such people you must shine out, beacons to the world.

Thought is the seed of action.

They can because they think they can.

Candid

Always paying attention.

You've gotta
be kidding.

Is it a bird?
Is it a plane?
No! It's Batman!

What do
you mean
it won't
stretch?

What a bore!
